

# EOSC-Future / RDA Artificial Intelligence & Data Visitation Working Group (AIDV-WG)

Monday, 7 November 2022  
14.00-15:00 CET, (15:00-15:30 tea Garden)

## Agenda (version 3.0)

[Zoom link](#) to join the meeting (passcode 123).

1. Short description of the state of play based on the minutes of the last AIDV-WG meeting on 3 October 2022 and the project timetable
2. Short information about RDA membership: advantages and opportunities of being a member of RDA
3. Introduction of the New Co-chair, Team Leaders, and Fellows.
4. Introduction to the AIDV-WG's websites (RDA, AIDV-WG)
5. Discussion on the AIDV-WG's work plan and timetable
6. Communication from the co-editor at CODATA's [Data Science Journal](#) (DSJ) as a 'common place for publication' of the AIDV-WG's outputs: 'As noted in the journal scope description, all papers submitted to DSJ must include an "attempt to generalise their significance in the submission. They should not just present a solution or an enquiry into a unitary problem but make an effort to demonstrate wider significance and application and say something more about the 'science of data' more generally.'" The RDA stuff seems appropriate. Probably also practice papers, but possibly a research paper around the whole effort. We have a [special collection](#) devoted to RDA outputs.'
7. Information about upcoming conferences:
  - a. [2022 EOSC Symposium](#), Prague, 14-17 November 2022 (information about approved submissions and call for speakers)
  - b. [RDA 20<sup>th</sup> Plenary Meeting](#), Gothenburg, Sweden, 21-23 March 2023 (information about submitted session(s) and call for collaboration)
8. Reporting and discussion on the work programme of deliverables (Team Leaders, Fellows, and Mentors)
  - a. Report from the Deliverable 3 Team on the preparation work on developing 'Guidance for Informed Consent in AI and DV'
  - b. Report from the Deliverable 5 Team on 'An AI Bill of Rights' some preliminary considerations of Israel's Ministry of Innovation, Science and Technology's '[Principles of regulatory policy and ethics in artificial intelligence – a public consultation](#)' (in Hebrew) and the US White House Office of Science and Technology's '[Blueprint for an AI Bill of Rights](#)' (in English).
9. AIDV-WG Meetings and Their Organisation

10. Agenda items for the next meeting on Monday, 5 December 14.00-15:00  
CET, (15:00-15:30 tea Garden)
11. Any other business (AOB)
