Call for Contributions
NFDI4Ing Conference 2022 (online)
Unifying the Understanding of RDM in Engineering Science

Conference Topics

- FAIR engineering science: applying principles to practice
- RDM tools and services: usability and automatisation
- Open science: impact and visibility of engineering insights
- Data literacy in engineering education

Timeline: *Extended!*

Deadline for extended abstracts (500-1000 words):	27.08.2022
Notification of review outcome:	09.09.2022
Conference (online):	26. & 27.10.2022
Deadline for optional full papers:	21.12.2022

Contribute to the NFDI4Ing Conference in your way

- The time slot you receive is free for you to fill. Possible contributions include, but are not limited to, tutorials, tech demos, presentations or workshops.
- The reserved time slots are set to 30 minutes. You may fill the complete slot with your contribution or finish early to leave room for discussion. It is also possible to apply for a 60 or 90 minute slot.

Visit our website

for more information, questions,

and to submit your abstract

https://nfdi4ing.de/conference/

Publication of contributions

- All submissions (extended abstract of 500 to 1000 words) will be reviewed by a double-blind peer-review process.
- Accepted abstracts and contributions will optionally be published as conference proceedings on Zenodo as open dissemination research data repository.
- Optional full papers (max. 8 pages) can qualify for publication as Special Issue contribution to ing.grid, the first journal for fair data management in engineering science (https://www.inggrid.org/).
