MCI / FEUP

## MOTIVATION

RDA-pt, together with the other European nodes in the context of RDA-4 are concerned with the adoption of RDA recommendations and the dissemination of adoption stories. Contributing to this goal, my M.Sc. dissertation entitled «Apply the RDA recommendations to Portuguese research groups» will be delivered in June 2020, with preliminary results expected by mid-April.

## GOALS

Encouraging researchers to make their data FAIR

Apply RDA Recommendations to Portuguese research groups

## APPROACH

Analysis and Selection

- Analyse RDA recommendations
- Select research units

Interviews

- Assess current RDM practices
- Suggest best practices through the RDA recommendations

Following up meeting

- Preliminary results after the adoption of the RDA Recommendations

## CONTRIBUTE TO THE DISSEMINATION OF ADOPTION STORIES

## STUDY CASES TO APPLY RDA RECOMMENDATIONS
