

Australian Gross Research and Development

- \$AU30B per annum R&D spend
- \$AU8B per annum HE spend
- *15% on data gathering??*
- \$AU1B on data per annum
- So we better get good value from this data

- What policy settings are needed?

HST Publication Statistics

Hubble: \$US1.5B,
Archive: \$1M/annum
OA policy
Doubled research publications

To reap the rewards:

- *Invest* in infrastructure, then
- *Set* the right policy, and thus
- *Exploit* the current large investment in data assets
