The Research Data Alliance (RDA) builds the social and technical bridges that enable open sharing of data to address cross-border & cross-disciplinary challenges. The current global research data landscape is highly fragmented, by disciplines or by domains, from oceanography, life sciences and health, to agriculture, space and climate, social sciences and humanities.

Reaping the fruits:
The Research Data Alliance Fourth Plenary Meeting in Amsterdam showcases the first concrete outputs from the RDA Working Groups.

Johnny saw some fine plums hanging. Oh, like eggs, so very large...
(Reaping the fruits from the first Dutch children’s book “Kleine gedichten voor kinderen” by Hieronymus van Alphen, 1778).
WHAT DATA SHARING PROBLEM ARE YOU TRYING TO SOLVE?
Get involved by becoming an RDA Member and signing up to the Working & Interest Group. Participation in the RDA is free and open to anyone who agrees to the RDA principles. Scientists come together through focussed Working Groups, exploratory Interest Groups to exchange knowledge, share discoveries, discuss barriers and potential solutions, explore and define policies and test as well as harmonise standards to enhance and facilitate global data sharing. Coupled with this RDA boasts a broad, committed membership of individuals and organisations dedicated to improving data exchange. https://www.rd-alliance.org/user/register
