Please add your name to the roster

01:58:05 james orwa: Hi, I'm an AI assistant helping Orwa Ariaro take notes for this meeting. Follow along the transcript here: [https://otter.ai/u/9icULmPNERCTNMCNkHVZMRBZ4ZM?utm\\_source=va\\_chat\\_link\\_1](https://otter.ai/u/9icULmPNERCTNMCNkHVZMRBZ4ZM?utm_source=va_chat_link_1) You'll also be able to see screenshots of key moments, add highlights, comments, or action items to anything being said, and get an automatic summary after the meeting.

01:59:12 Francis P. Crawley: Everyone, please feel free to introduce yourselves here in the chat. I think there may be too many of us for going around the table to say hi, but please do something about yourself here.

01:59:19 Natalie Meyers: <https://ahaslides.com/XW91H>

01:59:30 Amy Koshoffer: Can you also put the link for the notes in the chat as well

01:59:55 Maggie Hellström: Is there a collaborative notes document for today?

02:00:02 Francis P. Crawley: Also use the chat throughout to connect with the speakers and with one another. Keep the conversation going here in the chat and find ways to connect and share.

02:05:15 Francis P. Crawley: Hello Everyone, we noticed the following within this meeting. If you disagree with this, let me know.

Hi, I'm an AI assistant helping Orwa Ariaro take notes for this meeting. Follow along the transcript here: [https://otter.ai/u/9icULmPNERCTNMCNkHVZMRBZ4ZM?utm\\_source=va\\_chat\\_link\\_1](https://otter.ai/u/9icULmPNERCTNMCNkHVZMRBZ4ZM?utm_source=va_chat_link_1)

02:05:42 Maggie Hellström: I strongly disagree to the use of AI assistants

02:06:00 Connie Clare (RDA): Following Francis's message, please can I share the RDA's policy on AI tools: <https://www.rd-alliance.org/about-rda/code-conduct/rda-guidance-ai-tools-usage>

02:08:23 Maggie Hellström: Reacted to "Following Francis's ..." with

02:09:06 Natalie Meyers: Replying to "I strongly disagree ..."

Thank you Maggie, this is addressed in our code of conduct. We will be addressing discontinuing use of otter with the participant invoking the tool.

02:09:37 Jasmine Ching: Hi Boon How and everyone, nice to meet everyone

02:10:12 Boon How Chew: Reacted to "Hi Boon How and ever..." with

I should have now removed the AI tool

02:11:03 Maggie Hellström: Replying to "I strongly disagree ..."

Thank you Connie!

02:11:25 Connie Clare (RDA): Reacted to "Thank you Connie!" with

02:11:51 Francis P. Crawley: With appreciation to Connie, the AI tool has been removed.

02:12:11 Maggie Hellström: Reacted to "With appreciation to..." with

02:16:12 Brittny Lapierre: Agree Daniel!

02:18:25 Maggie Hellström: "It was the best of times, it was the worst of times, it was the age of wisdom, it was the age of foolishness, it was the epoch of belief, it was the epoch of incredulity, it was the season of Light, it was the season of Darkness, it was the spring of hope, it was the winter of despair, we had everything before us, we had nothing before us, we were all going direct to Heaven, we were all going direct the other way—in short, the period was so far like the present period, that some of its noisiest authorities insisted on its being received, for good or for evil, in the superlative degree of comparison only." -- Charles Dickens, A Tale of Two Cities (1859)

02:18:39 Brittny Lapierre: Reacted to ""It was the best of ..." with ♥

02:21:50 Tatiana Usova: Will there be a transcript of the talk? I could not see it on otter

02:23:56 Maggie Hellström: But just as humans, also "AI" can suffer from pareidolia – the tendency to perceive a specific, often meaningful image in a random or ambiguous visual pattern (Merriam–Webster definition). So just because machines can rework input into something else based on their algorithms, it won't necessarily be more trustworthy or useful.

02:25:56 Richard Pitts: Fantastic thank you

No, otter was switched off as its use clashed with the RDA code of conduct.

02:27:01 liliana Siede: Thank you Daniel!

02:27:19 Michael Ridley: Excellent talk; many thanks Daniel.

02:28:04 Luis Jacob Retanan: Question: On the issue of dual-use/ military–civilian use issue, would this be impactful to the future of Open Science and international scientific collaboration? How can this be addressed?

02:29:43 Jitka Hansen: Question for Daniel (not sure where to put it in the google doc): Could you kindly provide an example on how ethical principles could be part of an infrastructure? Thanks.

02:30:09 Natalie Meyers: Feel free to put questions here!

02:52:30 Francis P. Crawley: Noel and everyone, the AIDV Working Group chairpersons will meet next week and we will look for a good manner to launch this survey at an international level now that we have this excellent pilot and results from Türkiye. So do let us know if you want to join Elif and others around the world in running the survey in your country or region.

02:53:16 Joseph Wafula: Yes I am available to run the Survey

02:53:55 Felix Emeka Anyiam: ChatGPT, being an open-source platform, brings with it several great advantages that will make the expansion of the surveys particularly impactful, further eliminating financial barriers that often limit the reach of survey research that are application-based.

02:55:15 Matamela Mulaudzi: Yes, Matamela from University of the Witwatersrand will appreciate and gladly participate. Hopefully colleagues in my institution and other surroundings institutions (South Africa) will participate too.

02:56:37 Perihan Elif Ekmekci: We have the survey on only in Turkish now. We are planning to have a meeting next week to discuss how we can run it in different countries. Please drop me, Natalie or Francis an email if you are intersted to run the survey in your contries so that we can invite you to the meeting.

02:56:38 liliana Siede: Thank you Gnana

Thank you very much sir for your interest. I look forward for your email. But indeed, the main difficulty now with informed consent if we add AI to the equation is that AI is becoming adept in making people to “willingly” give up their own autonomy.

that was driving ☺ my thinking and is a worry

@Luis: when you say "AI" do you mean the AI tool/interface as such or the companies/organisations that have developed and host the AI platforms? Or both?

03:53:38 Francis P. Crawley: Luis, this has been your concern from the beginning of the AIDV–WG, if I recall correctly. The reality of AI (promises and threats) are enormous.

03:57:47 Maggie Hellström: I think that the problem isn't really AI usage/governance/policies for AI in the scientific research context – it is what governments/military/private actors are doing (regardless of official rules) that worries me...

I do agree (coming from the defense establishment) – they are bent on weaponizing without any concern on the ethical repercussions.

04:00:09 Jasmine Ching: Replying to "For comments, sugges..."

I think this goes back as well to the core basics of the participants' understanding of their basic

rights as well when they sign their informed consent? So hence the ability to prevent the persuasiveness of AI in getting them to willingly give up their autonomy? just a thought

04:00:16 Lars Eklund: Thank you all speakers for great and interesting talks and all the work that you have done, And to Francis, Elif and Natalie for organizing it
