### **Groups jointly meeting**

IG Metadata

WG Metadata Standards Catalog

IG Data in Context

Following the Joint Metadata groups session at RDA P7 a discussion initiated there continues using a google spreadsheet [here](#) thanks to Steve Richard.

The resource definition is on the first tab, metadata element definitions on the second tab. At this point if people want, I'd suggest adding a new column for each reviewer. Comments can also be added using the google comments. Permissions are set up so anyone with the link can edit.

The doc is also published [here](#). This link is only for viewing and can be shared for read-only access.

MIG and other metadata group members are invited to contribute to the google docs spreadsheet and/or to make comments using the 'Post to Group Mailinglist' facility (right hand side of this page under 'Add Content')
