

BoF Evaluation of Research

RDA Plenary 19

20 June 2022

- BoF co- organised by Aris Asmi (RAB), Françoise Genova (RAB co-chair), Nathalie Harrower (RA), Rosie Hicks (RAB), Rebecca Koskela (RAB co-chair), Shelley Stall (OAB co-chair)
- Shared documents
 - [Collaborative notes of the meeting](#)
 - Collaborative document « [Evaluation of Research – Stories and Links](#) »

BoF raison d'être and objectives

- BoF raison d'être
 - The evolution of research evaluation is a hot topic, and indispensable for open science to succeed
 - Data is one of the key components of open science
 - ⇒⇒ Discuss the topic in the RDA to check possible RDA role(s)
- Objectives
 - To hold a first discussion about the subject in the RDA;
 - To assess whether there is an interest in the RDA community to develop activities in the domain;
 - To identify useful activities which could be tackled by the RDA in the domain, such as a concrete list of existing initiatives on the subject, and create a realistic working plan on how RDA could contribute on the evaluation aspects, particularly regarding data

Agenda

- A set of short talks from different stakeholders' point of view
 - Javier Lopez Albacete (European Commission)
 - Serge Bauin, Centre National de la Recherche Scientifique (France)
 - Carlos Montero Corrales (National University of Costa Rica) - Evaluation of results of Veterinary Medicine School of the National University of Costa Rica
 - Claudio Monge Hernandez (Costa Rica) - The challenges of the new scientific evaluation in an open science world: a latin american perspective.
- A short presentation of the outcome of a global questionnaire survey of the scholarly communication attitudes and behaviours of early career researchers (Harbingers), presented by Chérifa Boukacem-Zeghmouri
- Discussion of possible follow-up activities

Possible RDA roles

Initial list to trigger discussion

- Information gathering about international, national and local endeavours
- Exchange of good practices about how to induce the evolution in different contexts to inform the RDA community
- Identification of relevant RDA Groups and of their relevant activities and products
- Contribution on evaluation aspects, in particular evaluation of data
- Etc?

Follow-up activities

- You can sign up in the collaborative notes if you would like to be involved, if you would like to participate in organising the activities
- During the conference, you can join the the Evaluation of Research community on Whova
