

## 23 September 2015 – Breakout 1 – 11:00

### Agenda

- Tour de Table (10 min)
- Marine Harmonization, MMI - Helen Glaves (20 min)
  - Environmental use cases (covering data collection, curation, discovery, contextualisation, evaluation (quality, provenance, applicability), re-use, citation, etc.
  - Environmental existing metadata standards and how they are used
- Dimitris Koureas – Biodiversity (20 min)
  - Environmental use cases (covering data collection, curation, discovery, contextualisation, evaluation (quality, provenance, applicability), re-use, citation, etc.
  - Environmental existing metadata standards and how they are used
- Metadata groups joint work to propose elements and packages (Keith Jeffery- 10 min)
- Discussion of Elements and Packages suitable for environmental science (Led by Rebecca Koskela - 30 min)

### Slides

#### Objectives:

From the two domain presentations, we would like to collect some inputs for the respective repositories in RDA.

We hope to get community engagement in metadata and community requirements for metadata being expressed so they can be incorporated into the metadata projects (along with our work with other application groups).

#### Groups:

- IG Metadata
- IG Biodiversity Data Integration
- IG Marine Data Harmonization

Contact Person: Rebecca Koskela

Co-chairs: Keith Jeffery, Dimitris Koureas, Nicola Nicolson, Vince Smith, Paul Kirk, Helen Glaves, Cyndy Chandler, Dawn Wright
