Doris Wedlock preferences are

(a) support to the RDA secretariat for logistics, open access to RDA reference documents and dissemination activities
Essentials:
- Essential 1:
- Essential 2:
- ...

Nice to haves:
- Nice to have 1: **would be of help for me also in the German Council for Scientific Information Infrastructures (RfII)**
- Nice to have 2:
- ...

(b) support the emergence of building blocks of an open, interoperable data infrastructure fostering interoperability across regions, organisations and scientific disciplines
- Essential 1: **yes!!!**
- Essential 2:
- ...

Nice to haves:
- Nice to have 1:
- Nice to have 2:
- ...

(c) support ESFRI infrastructures and new communities to engage in Open Science and data sharing principles. In particular, the proposal activities should provide financial support of the organisation and coordination of European stakeholders' active participation and contribution to the Research Data Alliance
- Essential 1: **I work on it adding this issue to the recommendations for the German Government by RFII**
- Essential 2:
- ...
