

## **September 19 - Breakout 2 (14:00 - 15:30) RDA 10th Plenary Montreal**

### **Joint meeting: IG Metadata, WG Metadata Standards Catalog, IG Data in Context, IG Research Data Provenance**

#### **Meeting objectives**

The Metadata groups have proposed a list of metadata elements required for interoperation of data. The list was discussed and the unpacking process was started at the P9 meeting in Barcelona. The objectives of this session include:

- Demo the Metadata Standards Catalog
- Present the feedback of ‘unpacking’ the complex structure of the list elements
- Continuation of the validation of the list of metadata elements by domain groups and technical groups
- Compare element set with existing metadata standards especially in the catalog of MSCWG
