# National PID Strategies Interest Group

January 2024 Meetings

# Agenda

1. Welcome
2. Introduction to the IG
3. Upcoming events: RDA P22 & PIDfest
4. Case study presentations

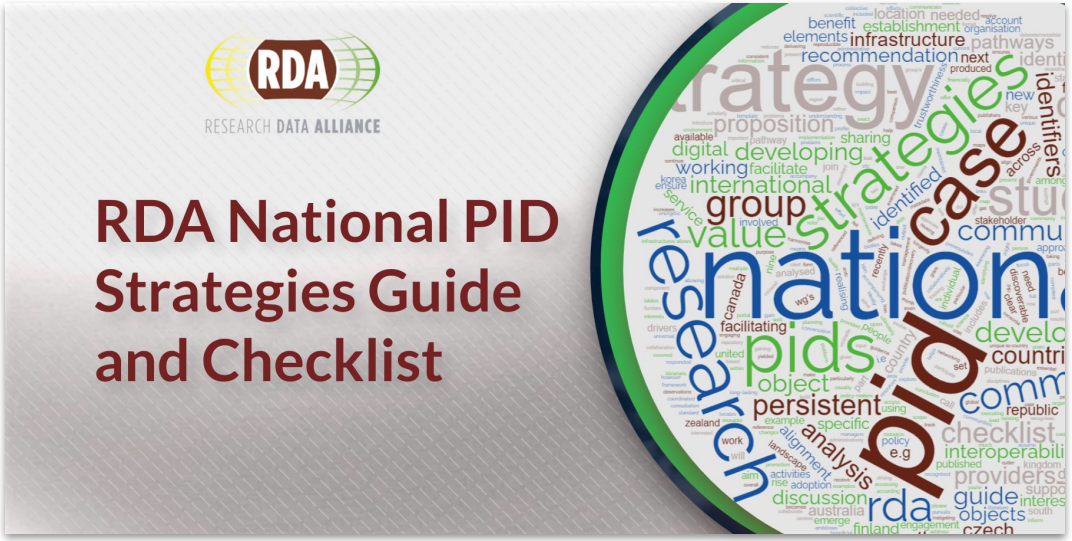
# National PID Strategies (WG to IG) update

Daniel Bangert, Digital Repository of Ireland

Natasha Simons, ARDC, Australia

Shawna Sadler, ORCID, Canada

Christopher Brown, Jisc UK



# Co-chairs: Farewell and welcome

Daniel Bangert, TU Delft, The Netherlands

Shawna Sadler, ORCID, Canada

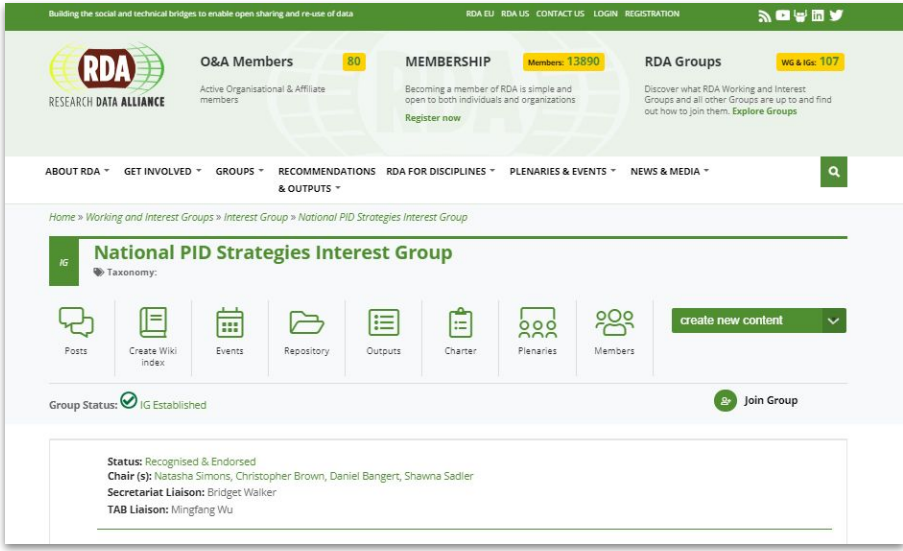
Hana Heringova, National Library of Technology, Czech Republic

John Aspler, Canadian Research Knowledge Network, Canada

# Welcome to the IG

Main purpose is to facilitate information exchange between those developing and/or delivering national PID strategies to improve coordination and alignment and to streamline efforts between countries through RDA.

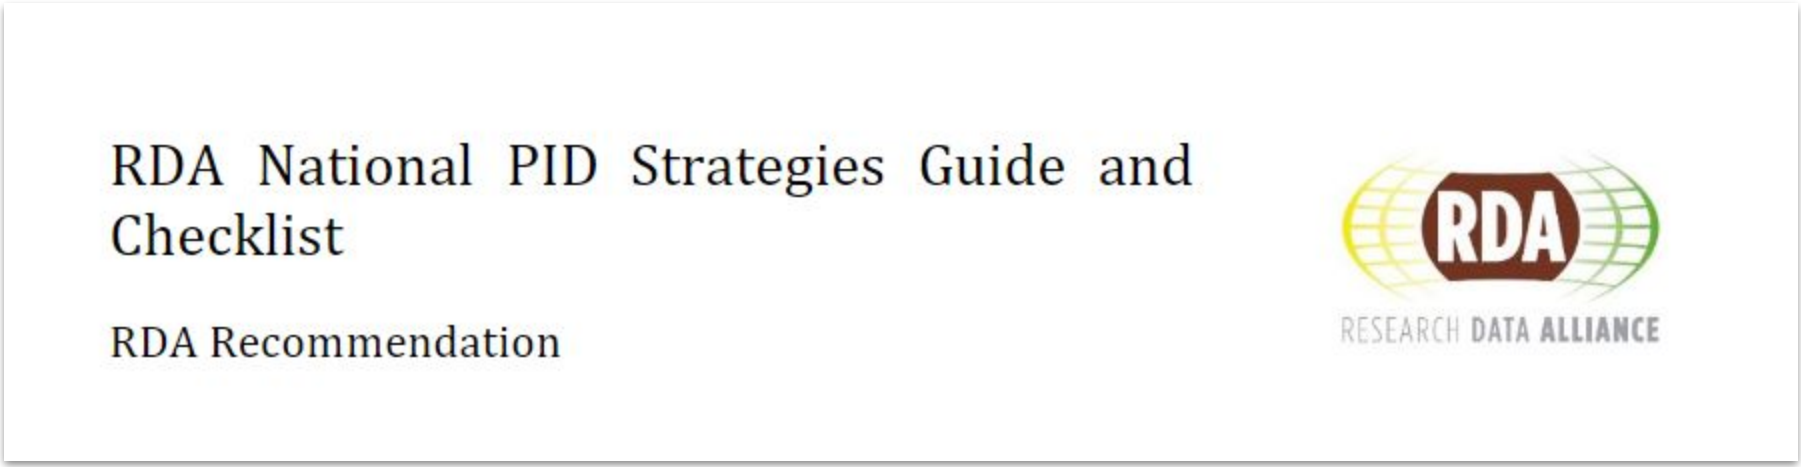
1. Transitioned from former WG
2. Endorsed by RDA Council
3. Will maintain and build on the outputs of the former WG (now closed)



Please join us!

# National PID Strategies WG - Outputs

1. Pathways to National PID Strategies: Guide and Checklist to facilitate uptake and alignment
2. Case Studies from Australia, Canada, Czech Republic, Finland, Germany, Korea, New Zealand, the Netherlands, United Kingdom



# National PID Strategies WG - outputs - key messages

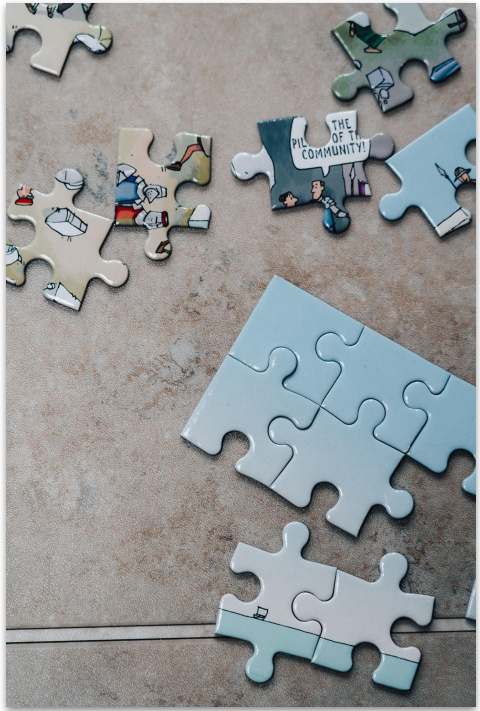
1. National PID Strategies are on the rise
2. There is no single ‘cookie cutter’ approach to developing a national PID strategy
3. Critical components include:
    - A clear value proposition with use cases
    - A group or organisation that is responsible for driving strategy development
    - An open, inclusive, iterative process that involves all stakeholders
    - An accompanying roadmap that outlines practical steps for implementation
4. Engagement between national PID strategies and PID providers is important for success

# National PID Strategies WG - Outputs

Outputs available on RDA Zenodo community and via the RDA National PID Strategies WG website

You can use these to:

- Inform the development of your national PID strategy
- Develop a roadmap to accompany your strategy
- Align with international initiatives in this important area
- Facilitate stakeholder engagement with national PID strategies
- Connect, communicate and collaborate with others developing national PID strategies



# National PID Strategies WG - thank you RDA Tiger

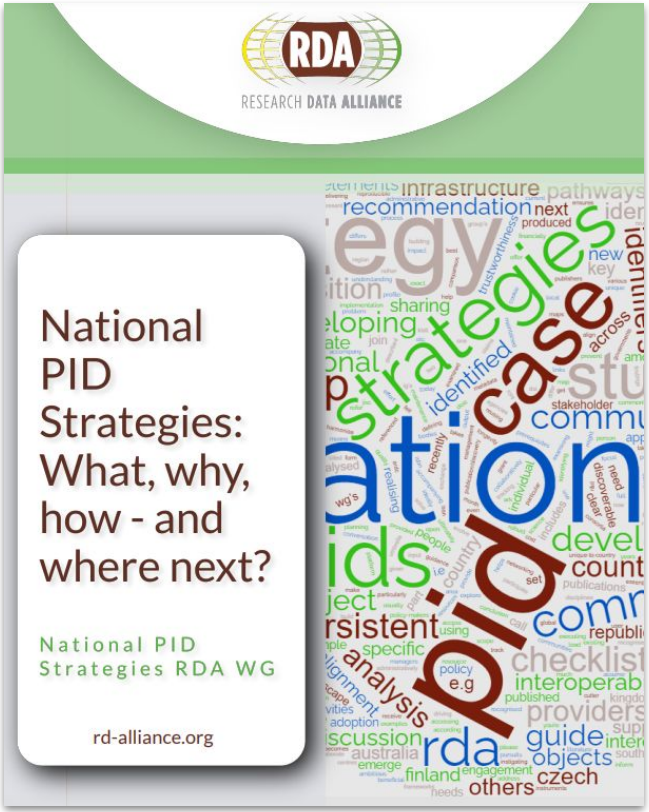
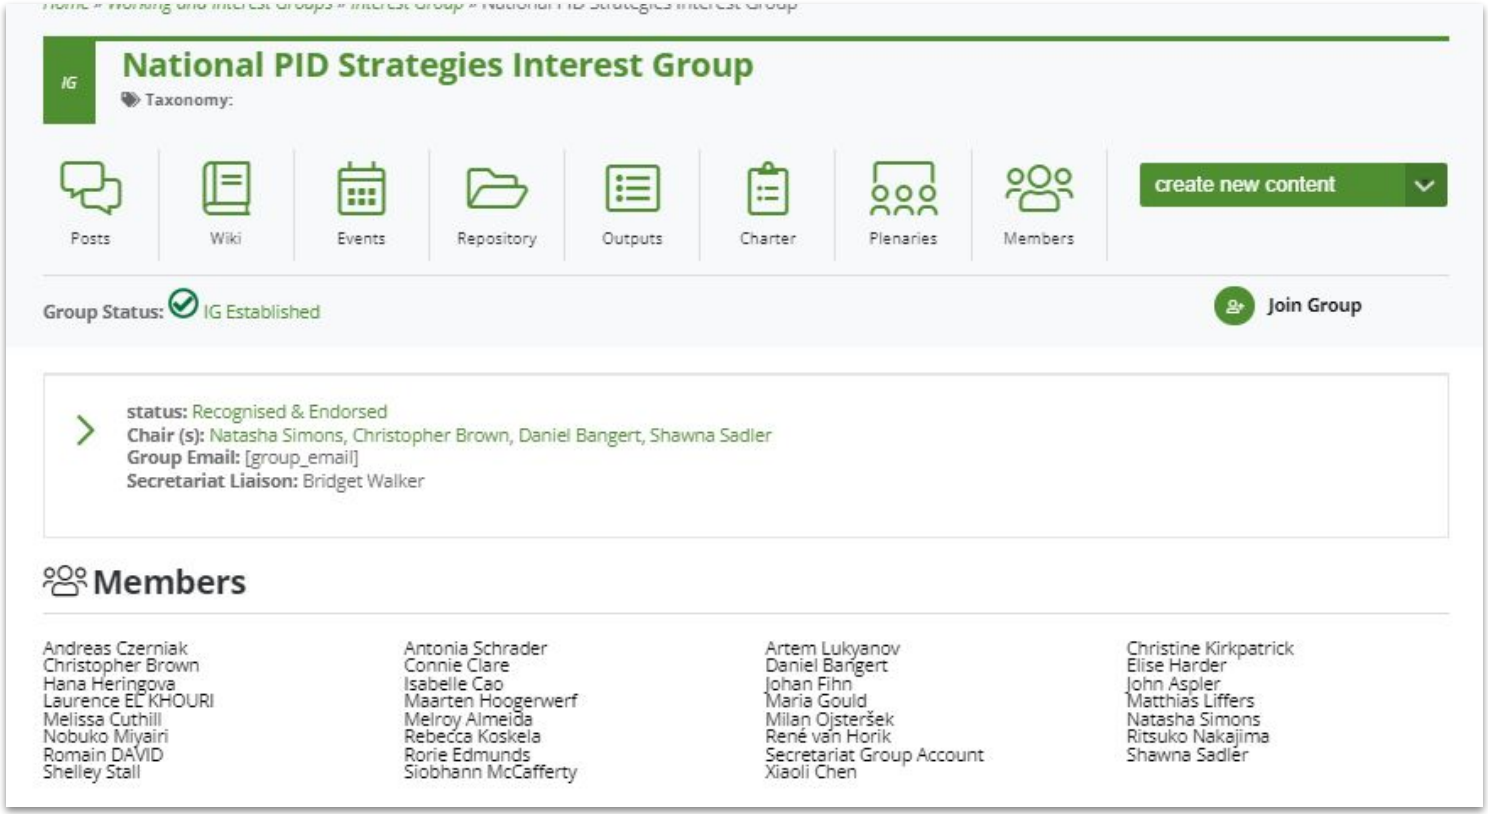
Checklist - https://www.rd-alliance.org/system/files/National-PID-Strategies-Checklist%20Visual.pdf

# National PID Strategies WG - thank you RDA Tiger



# National PID Strategies WG - thank you RDA Tiger

# Launching the National PID Strategies IG



Your name here

# Proposed IG activities mapped to goals

IG Goal #1: Facilitate information exchange between those developing and/or delivering national PID strategies

Activities:

- IG meetings (incl. online between plenaries) to share presentations on new and updated case studies and facilitate discussion

IG Goal #2: Facilitating engagement between developers of national PID strategies and international PID providers such as ORCID, DataCite and CrossRef

Activities:

- Focussed conversation between IG members and various PID providers at meetings and other events
- Explore possible opportunities to work better together

# Proposed IG activities mapped to goals

IG Goal #3: Collaboratively developing the value proposition for national PID strategies overall as well as its component parts (such as grant identifiers, person identifiers, organisation identifiers) that can be reused/adapted by the community

Activities:

- IG meeting for members to decide on focus areas. Possibilities include:
  - Value proposition development
  - Governance and service models
  - Guidance materials on what types of entities PIDs can be assigned to and which PIDs might be used for what purpose
  - Benchmarking PID adoption levels - strategies and techniques
  - Developing a Capability Maturity Model - nationally, for stakeholder groups (e.g. funders)
  - Mapping the policy landscape for PID mentions
  - Creating a website or similar to share National PID Strategy information more easily (view case studies, get in contact with people etc)

# Proposed IG activities mapped to goals

## IG Goal #4: Collecting case studies of national PID strategies from countries across the globe

Activities:

- Encourage submission of new and updated case studies using the template designed by the WG
- Update the case study template if needed

## IG Goal #5: Maintenance of the guide and checklist produced by the National PID Strategies WG

Activities:

- Periodically update the guide and checklist with new case studies received

# Discussion

- How can the IG help you with your national PID strategy?
- What would you like the IG to discuss over the next year?
- What would you like the IG to produce?
- How do you think the IG can work better with PID providers?
- Do you have any other suggestions for the IG?

# Upcoming events

What would you like the IG to discuss at the upcoming Plenary?

Brought to you by:
