

# RDA Node Slovenia

## From the Coordinator

*“RDA Node Slovenia stimulates the adoption of RDA outputs in support of the implementation of the official national Open Access policy and its action plan. We seek to establish a collaboration of national data services while respecting the disciplinary diversity and research communities’ needs. RDA Node Slovenia provides a space for an exchange of information among different communities, projects and stakeholders.”*

## This is us ...

## Our story so far ...

**Advocating for open research data, supporting research infrastructures, helping to implement National Strategy for Open Access, connecting diverse collaborators**

**Positioned RDA Node within key national stakeholders:** policy-makers, scientific journal representatives, academic institutions, data services.

**Promotion of RDA in Slovenia:** monthly newsletters, Node events, high visibility at other Open Science events, active promotion of RDA open calls.

**Development of an open data journal policy pilot project:**

- Guidance document in Slovenian based on RDA Outputs and National Strategy/Action Plan
- New journal policies on research data ready for implementation at Socialno delo, Slovenščina 2.0, Contributions to Contemporary History, and Documenta Praehistorica journals
- Results presented at Node conference on 28 January

## CONTRIBUTION TO CURRENT OPEN ISSUES IN DATA SHARING IN SLOVENIA

- Established three working groups for key topics
- Issued recommendations for the Slovenian Personal Data Protection Act
- Formed 12 suggestions for improvements in data management and access on national level, based on proceedings from the Open Research Data in Slovenia conference
