

# Spanish Network for Open e- Science

Ignacio Blanquer

# Network Structure and Objectives

Red Española de  
e-Ciencia Abierta

- To promote the communication by sharing experiences and activities in the frame of EOSC.
- To impulse R+D+I activities, disseminating the activities in EOSC and fostering the participation of Spanish actors.
- To reinforce the participation of Spanish institution in EOSC increasing their presence in Fora, resources and service catalogues.
- Implement a sustainability plan and identify business opportunities.

Proposal funded in the call 2018 *Acciones de Dinamización - Redes de Investigación*.

e-Ciencia Abierta

# Expected Impact

Red Española de  
e-Ciencia Abierta

Participation in EOSC events and  
digital presence

-  **EOSC Sustainability**
-  **EOSC Landscape**
-  **EOSC FAIR**
-  **EOSC RoP**
-  **EOSC Skills&Training**

Participation in key committees

Participation in project proposals  
and in the EOSC Marketplace

## *Integrating Capacities & Building Capabilities*

# Project Mission

Expand EOSC Capacity  
and Capabilities by leveraging  
Investments and Existing  
Know-How & Resources

of National Digital infrastructures,  
under the coordination of

- Service Interoperability
  - Compliance to official and de facto standards of EOSC core services.
- Policy alignment
  - With EOSC FAIR principles.
  - Software Quality Assessment.
  - Privacy and Security Directives in the cloud.
- EOSC Core integration
  - Leverage positioning in key EOSC projects
  - Integration of national repositories as services in the EOSC Marketplace.

# Project Mission

## Promoting EOSC High Quality Services

Software quality as a service, FAIRness evaluation and quality certification badges

## Thematic Services Integration

10 thematic services addressing 4 scientific areas (Earth Observation, Environment, Biomedicine and Astrophysics)

## Skills development

Environment for tutorials with a dedicated MOOC platform, courses methodology and a Hackaton as a service platform.

## Capacity Expansion at the Infrastructure level

Integration of services and resources from the RIs of the consortium partners.

## Alignment at the Policy Level

Collaboration with regional projects on landscaping activities, gap analysis and contribution to EOSC policies.
